ABOUT

I am a professional Web Developer with over 6 years of experience in web development. I have strong creative and analytical skills, paying great attention to detail. As a team player, I thrive in collaborative environments. My expertise lies in JavaScript, ReactJs, HTML, CSS, and Bootstrap.

RESPONSIBILITIES AND ACHIVEMENTS

Role and Responsibilities:

- Spearheaded UI development, innovating features for a streamlined user experience.
- Integrated web services, designed reusable UI components, and promoted code efficiency.
- Mentored and guided junior team members, contributing to their professional development.
- Conducted code reviews, ensuring adherence to coding standards in personal and assigned projects.

Achievements:

- Optimised table component performance, reducing update time from 7-10 seconds to milliseconds.
- Implemented React Query for caching, significantly enhancing overall project performance.
- Successfully migrated React project from v15.x to v16.x in 2019.

EXPERIENCE (6+ YEARS)

Josh software pvt ltd	**Feb-2020 - present**
Spring CT Pet. Ltd.	**Jan-2018 - Feb-2020**

PROJECTS

MINT
Digital platform to streamline budgets for advertising inventory and media spends.

SAT(SECURITY ASSESSMENT TRAINING)
SAT is a training platform that gives training to users against different phishing attacks.I am carrying out the responsibility of its migration that is converting the existing code base to its latest version from React 15.x to 16.x and the re-skinning that is giving new look and feel to it.

CIRCLES.LIFE
This is telecom company sells sim cards in various countries. I have built dashboard for it which includes showing data using various charts and tabular format.

LOOOKIT
LoookIt is an immersive communications service that allows participants to share a whiteboard in the cloud in real-time.LoookIt can be used by Consumers, Educators, and Customer Support staff to provide rich interactions in a simple and easy-to-use manner

KRISTAL.IO
Kristal's are digital portfolios of assets built using unique investment strategies. Renowned traders across the world have come together to create each Kristal with their in-depth financial intuition and decades of investment experience.

BIDWHEELZ
This is the platform where users can sell and buy old cars. This platform provides the feature of live bidding where users can play bid for the cars. I was responsible for building new features and fixing the bugs
